Simple Skit Format Names: _____

There are many formatting rules when writing scripts for the stage, screen, or airwaves. Let's keep things simple by listing the spoken lines, actions, and effects in order.

Example:

EFFECT	KNOCKING SOUND
ACTION	*Joe sneaks to the door and looks through the peephole.*
JOE	What query so acutely confounds my tranquility? I unquestionably
	require quietude, yet my curiosity must be quenched!

Notes: If elements occur together, connect them with a mark.
If an element is wordy, continue to the next row and leave the first column empty.
